

# NEW NAE Hydro AC Hydro-boost Enhanced Air Conditioner

Innovative Hydro-boost circulator technology takes air conditioning efficiency to a new level

Intermittent condenser spray maximizes cooling performance.

Environmentally friendly R-454B low GWP refrigerant.

Inverter driven variable-speed compressor.

Low sound operation.

Custom modes: Efficiency, Normal, Performance, Boost.

IoT module provides bluetooth access for simplified contractor installation and diagnostics.

The new NAE Hydro AC enhances traditional air conditioner technology by incorporating an intermittent condenser spray feature that increases system operating efficiency.

The NAE can provide SEER2 rating as high as 28, making it one of the highest SEER2 AC products currently available. It uses eco-friendly R454B refrigerant while providing low sound levels.
